**TRANSMITTAL LETTER**

Sir:

This document constitutes a third attempt to transmit electronically to the USPTO an Amendment and Response to the first Office Action mailed August 10, 2006. It is submitted at the suggestion of EFS-Web personnel of the USPTO since the first two PDF versions, submitted on October 26, 2006 and October 28, 2006 and created with OmniPage Professional 15 software, were both received in garbled condition at the USPTO. This version was converted directly from MS Word into PDF format and comprises a first file which includes this transmittal letter, a second file which includes the body of the amendment and response and a third file which includes a revised drawing for Figure 10, as explained in the response.
